

I have been employed as the School Business Manager at Priestsic Primary & Nursery School since April 2018.

My career in school administration started 2013 and I have been employed in two different schools in the Mansfield area. Before embarking on a career in the education sector, I worked locally for Coats Viyella / Quantum Clothing for over 30 years in many varied business administration roles including Management Accountant.

I have lived locally all of my life and attended both primary & secondary schools in the Sutton in Ashfield area.

I became a co-opted governor because I wanted to help and support our school and to be able to contribute to our local area. It is my hope and belief that the strong foundation that the children receive at our school will give them every opportunity to succeed in the future.

In addition to my voluntary role as a school governor, I have a passion for and enjoy all sport. Whilst at school I was fortunate to be able to participate in sport from school to national level. I still enjoy participating in sporting activities in my free time and I attend spinning classes and a gym locally. In addition to the gym, I like running, walking and spending time with my family. I have raised funds for local and national charities, through running by participating in the London and Dublin marathons on numerous occasions.

Sandra Stringfellow

Co-Opted Governor
